

**Freedom of Information Act 2000****Wiltshire Health & Care LLP Response to Information Request****Date Request Received: 09/03/2019****FOI Ref: 1/19\_20****Requested Information**

I am writing to request an internal review of Wiltshire Health and Care's handling of my FOI request 'Transactions over £25,000 prior to January 2017'.

On 26 January 2019, I sent you a FOI request for your expenditure over £25,000 prior to January 2017.

On 7 February 2019, you provided me with a website and said you are currently developing your reporting systems, and once these are ready, will publish the relevant information at this location

The guidance for publishing spend data for government departments states:

2.10 Spend is to be published one month in arrears, ie by the last working day of the month following the month to which the data relates. If the data is available before the end of the month, it should be published as soon as the department has cleared it for release. This data is to be published in individual monthly files.

2.11 You should not hold up the publication of your data where you have unresolved individual queries. You should publish the cleared data within the publication timescales, and amend the data at a later date if necessary. See section 2.5 for further detail on applying redactions to the data.

Please see here for more details: <https://www.gov.uk/government/publications/guidance-for-publishing-spend-over-25000>. This letter makes it clear that this guidance applies to the NHS: [https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/216668/dh\\_119742.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/216668/dh_119742.pdf).

This means that the data requested should already be published. For this reason, I would like to request an Internal Review of the initial response to my Freedom of Information request.

**Response**

We have now investigated this request for you with the key personnel, and the information that you have requested in relation to Wiltshire Health and Care for that time period would have been included in the information published by Great Western Hospitals NHS Foundation Trust.

This is because Great Western Hospitals NHS Foundation Trust were supporting Wiltshire Health and Care's financial reporting at this point in time.

I hope you find this information helpful, however if there is any further information you require from us then please do not hesitate to contact us again.
